# The Detail is not the Devil

At CIE the detail is at the core of everything that we do.

From the beginning of your relationship with us, you will observe how no stone is left unturned, no specification left unchecked, no design detail left to chance.

By paying attention to the fine detail, we maximise the potential and appreciation of the outcome. It gives us the discipline that guides our creativity - the detail is what sets it apart from the competition and makes it memorable.

“The details are not the  
details. They make the design  
Charles Eames

CIE65  
LONDON

At the installation phase it manifests itself in our detailed drawings, our communication with the project team and our coordination with our trade partners. We scrutinise our final product to ensure all furniture is fitted to the highest possible standard. Our finishing teams help to deliver a quality, compliant project, snag and defect free, every time.

It is why CIE have established a first-class reputation, providing high quality kitchen products with a service that is unrivalled since 1959.

Speak to us today to see how we can add value to your next Central London prime residential kitchen project.
